GLOBE ARBOR VITAE

AMERICAN HOLLY

... Specimen Evergreens ...

ARBORVITAE

American, Thuja Occidentalis—A selected dark green, broadly pyramidal form grown from cuttings. It is the hardiest and most drought-resistant Arborvitae. **Globe**—2½ to 4 feet. A dwarf form which makes compact globes without trimming. **Pyramidal**—15 to 20 feet. Grows in columnar form with shearing. Brighter and darker green than the common Arborvitae. Much used in entrance, foundation. **Siberian**—10 to 15 feet. One of the hardiest of all the Arborvitae, very compact, broadly conical in form and with dense dark green foliage.

JUNIPER

Chinensis, Chinese Juniper—20 feet. Resembles Red Cedar. Does not get red in winter. **Cannarti J. virginia cannarti**—15-20 ft. A grafted form, clear green throughout the year. Needs shearing to make a close, regular pyramid. Unexcelled year round. **Dundee**—A grafted narrow pyramidal form with compact regular growth without shearing. **Plumosa, Andorra Juniper**—1½ feet. A rich, bright green in spring and summer, and attractive purplish bronze in winter. **Pfitzer**—5 to 6 feet. A dwarf variety of the Chinese Juniper. The foliage is bluish-green and the branches grow out horizontally from the stem. **Sabina, Savin Juniper**—4 to 5 feet. A bushy little tree with semi-erect branches and clear green foliage. **Virginia**—25 to 30 feet. Sheared specimens of our native Red Cedar. Splendid blue or green summer coloring, purplish-red in winter. Thrives in poor dry soils.

PINE

Mugho, Dwarf Mountain Pine—3 to 5 feet. This makes a compact dome-shaped bush broader than high. Size apply to width rather than height. **White, P. Strobus**—60 to 100 feet the softest foliage of the pines. Endures some shade and is the longest lived and largest growing pine. **Austrian**—25 to 30 feet. Bright green at all times and endures city conditions exceptionally well.

SPRUCE

Black Hills—50 to 70 feet. A native of the Black Hills. It does very well over a wide range and makes the finest specimens of all Spruce. **Colorado Blue**—Selected Blue Specimens or Shiners. **Norway Spruce**—A rapid growing, thrifty Evergreen with wide adaptability as to soils and locations. This

FIRS

Balsam Fir—Beautiful, heavy, lustrous deep green foliage. Fine for ornamental planting and for "living Christmas trees". Also a good windbreak tree. **Concolor Fir**—Long graceful needles, varying in color from light green to gray-blue. Tree grows compact and shapely. **Douglas Fir**—A hardy, Quick growing, drought resisting, deep green tree. Ideal to use as an ornamental or windbreak tree.

YEW

Japanese—Japanese Yew, spreading T cuspidata—4-6 ft. A spreading irregular bush form. Can be kept low by shearing. **Japanese Yew, Upright T. capitata**—8-12 ft. Broadly pyramidal. May be sheared into any form.

VEGETABLE and FLOWER SEEDS

We are stocking a complete assortment of vegetables and annual and perennial flower seeds in packets and cartons. The cartons contain about enough seeds for one planting in the ordinary garden. Peas, beans and sweet corn are packed in cartons and sell at 20¢ per carton. Most other vegetables and flowers sell at 10¢ and 15¢ per packet. These seeds are furnished to us by the FERRY-MORSE SEED CO., which is one of the largest growers of seeds in the country. All of the varieties we stock are adapted to this vicinity and are the best strains to be had. We are now stocking Burpee Flower and Garden Seeds.

Besides the seeds in packets, we are offering the following seeds in bulk. These seeds are available at the nursery or we will send them to you postpaid anywhere in Iowa at these prices.

MEYERS Flowering Shrubs

These two pages picture a group of choice shrubs that will add color and beauty to your home grounds. They can be planted for border plantings, giving you privacy and beautiful flowers all summer and fall.

They can also be planted for accent plants at the corners of the house. The dwarfier kinds can be used for foundation planting alone or interspersed with evergreens. Many varieties make fine individual specimen plants placed in proper locations on the lawn. We will be glad to assist you in any way we can in planning your planting.

You will find many other shrubs and sizes described and priced on other pages of this catalog. We also grow a number of items not listed. If you do not find what you want please write or phone or call at the nursery, as we probably have it, or at least we can get it for you.

Ash, Green — A fast growing shade tree. Not easily broken by storms or likely to be injured by pests.

Birch, Cutleaved Weeping — 30 to 40 feet. A very attractive ornamental tree with white bark and fine dropping branches.

Birch, European White — 30 to 40 feet. A hardy attractive tree with white bark.

Ash, European Mountain — A valuable tree on a small lawn; scarlet berries.

Elm, American White — 80 to 100 feet. One of the best of all shade trees. Thrives in almost all situations.

Elm, Chinese — Extremely rapid and dense growing. Suitable for dry soils. Twigs fine and much bent. Leaves small and remain green late. Cut back heavily in transplanting.

Elm, Moline — A very vigorous upright variety of the above with large, close set leaves. Budded and all one type.

Hackberry — strong, rapid growing shade tree.

Locust, Moraine — 50 feet. A new patented tree completely seedless and thornless with a pleasing vase shape similar to the elm. The small compound leaves make a filtered shade.

Lombardy Poplar, Populus nigra italica—50-70 feet. The well known very columnar poplar widely planted for tall screens, accents and hedges along drives. The dense upright branches form a slender tapering tree from the ground to a slightly pointed top.

Linden—American Tilia Americana — 60 to 80 feet. Large leaves, splendid shade tree.

Maple — Schwedler, Purple Norway — 40 to 50 feet. Large, bright purplish-red foliage in spring, turning to bronzy-green in summer and yellow in fall. Budded on common Norway Maple. One of the most colorful shade trees.

Maple—Hard or Sugar—One of the best shade trees which colors brilliantly in the fall.

Maple, Silver — A beautiful fast growing Maple, with compact, sturdy branches and large, dark green leaves. One of the best.

Maple, Crimson King — In the spring the foliage is a rich red and carries this deep red foliage through the entire season.

Red Oak Pin, Quercus borealis — 60-80 feet. One of the faster growing of the upland Oaks.

Oak Pin, Quercus palustris — 75-90 feet. Grows rapidly in moist soil. Leaves are retained and color splendidly. Transplants easier than most oaks. Lower branches somewhat drooping.

Willow, Niobe Willow — 40-50 feet. Golden yellow bark, very long penulous branches. Strikingly beautiful as a specimen or at the waterside. Very rapid grower. Plant early.

STRAWBERRIES EVERBEARERS

Gem, Everbearing

We have grown and sold the "Gem" for many years. They are the biggest, reddest, juiciest strawberries we ever grew. They "make" new plants, stand drouth and bear lots of fruit all summer long.

Streamliner, Everbearing

Very large fruit of brilliant scarlet red, has exceptionally rich quality and flavor—the grandest berries imaginable for eating fresh, canning, freezing, preserving. Just 8 or 10 weeks after planting you start picking these immense, juicy berries, continuing until frost stops them in the fall. Plants are unusually strong, healthy and re-productive.

Lawn Seed

We offer a special mixture of extra good quality Lawn Seed that we do not hesitate to recommend very highly. We mix only the best grades of seed which insures a good stand of grass. You cannot afford to take chances with your lawn. The best policy is to sow clean seed. In addition our Lawn Seed is Gro-coated. Gro-coat protection means the use of fungicides which disinfect the area around the seed. There is a growth stimulator added which is designed to increase early root development. Home owners tell us they get faster growth, larger plants and many more of them, when they sow Gro-coated lawn grass seed. We mix two grades of seed, one for ordinary seeding and another for shady spots. One pound of seed will sow approximately 250 square feet.
